INDUSTRY 4.0

Victor Series

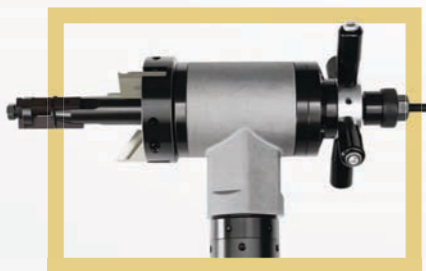

With the advent of the era of industrial 4.0, the degree of automation is higher and higher. In our field, the application of automatic welding is more and more widely. The beveling for automatic welding required: OD Beveling, Facing and Internal beveling. As the pioneer in China, NODHA is proud to push the "Victor" Series to the market.

1/ Cutter can hold 3 tool bits process in one time. Automatic welding requires OD Beveling, facing and internal beveling. Only 3 side processing finishes in one time can guarantee the precision of beveling. The cutter can install 3 pcs tool bits, meeting the demands.

2/ New expanding structure. New designed expanding structure makes the fix more stable and has a low failure rate.

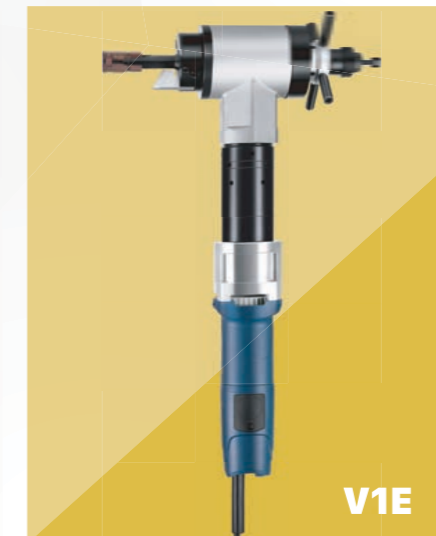

3/ New-design main shaft fixation. There will be a smaller gap of the machine. Performs beveling more smoothly, with less vibration.

V1

Driven Option

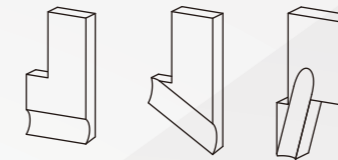

V1 P Air Operated
V1 E Electric Operated, NODHA Motor
V1 B Electric Operated, BOSCH Motor

Tool Bits

Standard Tool
V Type Prep.
U Type Prep.
Facing
Inside Beveling
*Consult us for special demand

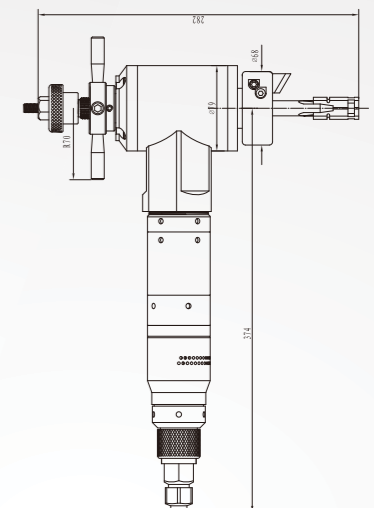

Optional Plastic Box

Standard Supply

Machine with its driven motor
Full set expanding blocks
Hand tools, Manual
Package: Plastic case JC20PC

Specification

Model	V1P	V1E	V1B
Driven	Pneumatic	Electric	Bosch Motor
Power Supply	900L/Min@0.6Mpa	220-240V 1PH 50/60HZ	220-240V 1PH 50/60HZ
Motor Power	1 HP	1000W	1000W
Clamping Range(ID)	15-28mm	15-28mm	15-28mm
Working Range(OD)	1.7"(44mm)	1.7"(44mm)	1.7"(44mm)
Wall Thickness	≤8mm	≤8mm	≤8mm
Rotation Speed	66r/min	52r/min	48r/min
Working Weight	7kg	8kg	8kg
Shipping Weight	13kg	14kg	14kg
Packing Size	590x410x170mm	590x410x170mm	590x410x170mm
Tool Number	2	2	2
